Dear Sam,

Terrible news about your wife! So sorry! I went through something like that about 30 years or a bit more ago. Turned out OK but I though my wife was dead for the 30 miles to the hospital.

Yockey moved to Channel 4 in Washington when he left N.O. I then lost track of him.

Dean Andrews told me that it was whitewash that got Garrison going. He said Garrison gave him a copy.

Wish I had time to tell you how all that ended.

Incredible story

With the ethics and the morals of your experience always there.

He was, in every way, a tragedy. Personally and professionally.

Yet he was erudite, articulate, an authentic intellectual and I think by and large a good DA.

Thanks and with the best possible wishes under the circumstance,

Harold
